

# Company Overview

Envirologic Technologies, Inc. is a full-service environmental consulting firm dedicated to providing logical solutions to environmental issues since 1989. Headquartered in Kalamazoo, Michigan, Envirologic is geographically positioned to serve the needs of clients throughout Michigan and adjacent states.

The scope of environmental regulations has grown increasingly complex, time-consuming, and burdensome. Envirologic's mission is to manage the regulatory details that threaten to overwhelm municipal, commercial, and industrial operations.

Envirologic enables our clients to comply with applicable government regulations by approaching environmental problems in a direct and cost-effective manner, with a strong emphasis on client interaction. Our combination of experience and individually-tailored project design and implementation provides a solid base on which Envirologic clients can rely for proficient and competent environmental services.

Co-Owners Jeff Hawkins (President) and David Warwick (Vice President)
