

Company Overview

Envirologic is a full-service environmental consulting firm dedicated to providing logical solutions to environmental issues since 1989. Headquartered in Kalamazoo, Michigan, we are geographically positioned to serve clients throughout Michigan and adjacent states.

Being a turnkey environmental consulting and services firm, Envirologic provides consistent, reliable management and completion of projects. Our team of scientists, many with over 20 years of industry experience, maintain expertise in numerous service areas including environmental due diligence, contaminant investigation and cleanup, ecological services, brownfield redevelopment, regulatory compliance, and field services.

Envirologic ensures our clients comply with government regulations by approaching environmental challenges directly and cost-effectively, with a strong emphasis on client interaction. Our combination of experience and individually tailored project design and implementation provides a solid base on which Envirologic clients can rely for proficient, scientific, and competent environmental services.

Co-Owners Jeff Hawkins (CEO) and David Warwick (President)
